

“Weather The Storm”

Overview

“Weather The Storm” was designed for all Apartment Managers and Owners wanting to enhance their knowledge of emergency preparedness. The course is divided into three sections to allow participants to better understand each of the community members responsibilities. Veterans of emergencies will appreciate the new tips and be able to share their own special preparations. First timers will gain a wealth of knowledge in the “Emergency System Process”. Owners will better understand what is required of them during an event.
